St. John’s Family Medicine Residency Program is based at St John’s Hospital and the Phalen Village Clinic. We offer robust training in inpatient medicine, obstetrics, and ambulatory medicine. We prepare our residents to work in any practice environment and to pursue fellowship opportunities. The clinic is located in a diverse, urban neighborhood in St Paul. We care for a well-established, ethnically diverse population, ranging from newborn infants to patients at the end of life.

St John’s Hospital is a busy, community-based, award-winning hospital. The residency service is integrated into all aspects of hospital services. The busy emergency room, ICU, and obstetric services complement the in-depth inpatient teaching services offered at the hospital.

The program has filled in the National Resident Matching Program every year since 1990 and graduating classes have surpassed the national testing average for the American Board of Family Medicine for the past 5 years.

What Our Residents Say:

“The diverse, challenging patient population appealed to me. I also liked the small-town feel of the hospital with the urban clinic. I like that hospital call is full spectrum and similar to actual practice.”
CURRICULUM

- Inpatient medicine, obstetrics, and clinic-based care prepare residents to participate in all aspects of Family Medicine practice and ABFM boards
- Electives available in rural family medicine, c-section training, colonoscopy, and sports medicine
- Diverse procedural training including colonoscopy, ultrasound, dermatologic procedures, colposcopy, and much more
- Opportunities for international rotations
- Collaborative didactic educational curriculum

FACULTY

- Core faculty includes MDs, DO, PharmD, and behavioral health PhD
- Board certified Sports Medicine faculty
- Expertise in women’s health, OMT, obstetrics, colonoscopy, sports medicine, and community health
- Full-time family medicine trained hospitalist faculty

CALL

- Longitudinal experience facilitates skill development and maintenance throughout training
- Call mimics “real life” work of a family physician
- Shifts cover full spectrum family medicine including deliveries, admissions, acute management, and other procedures

CLINIC

Phalen Village Family Medicine Clinic
- Community-based clinic within an academic health system that has access to resources of a large multispecialty system
- Integrated care team includes on-site PharmD, behavioral health, social work, and RN support
- Certified Health Care Home
- Robust team care and population management
- Resident engagement in quality improvement and panel management

HOSPITAL

St. John’s Hospital
- Suburban, community-based primary care hospital
- Family medicine physicians comprise the majority of hospitalist care and perform 30% of OB deliveries
- Work side-by-side with our collaborative specialty services
- Residency is integrated into the function of the hospital and patient care
- Only residency in hospital

OUR GRADUATES

- Work in a wide variety of practice locations
- Pursue inpatient care, outpatient care, obstetrics, and fellowship opportunities
- Practice in rural, urban, and academic settings
